IT7012: Entrepreneurship and Research Methods

Course Details

Course Code:	IT7012
Course Title:	Entrepreneurship and Research Methods APPROVED
Short Title:	Entrepreneurship & Research
Course Level::	Level 7
Valid From::	2025/2026 Sem 3
Credits::	15
Owner:	ICT
Assessment Method:	Achievement
Course Aim	The course aims to equip students with essential entrepreneurial principles and research methodologies to support innovation in technical and practical contexts. Students will first explore how to identify and evaluate opportunities for product, service, or venture development. They will then learn how to design and conduct applied research to validate and refine their ideas. Emphasizing both evidence-based decision-making and entrepreneurial thinking, the course prepares students to engage with real-world challenges, supporting diverse research, career and innovation pathways.

CILO	
On Completion of this course, the learner will be able to	
#	Learning Outcome Description
1	Explain core concepts, theories, and practices in entrepreneurship and research across technical and innovation-driven domains.
2	Investigate innovative opportunities in product, service, or venture development using appropriate research and data analysis techniques.
3	Evaluate advanced research methodologies to support evidence-based decision-making.
